

# Unlock Compliance Excellence with andros

Navigating healthcare compliance can be challenging, with risks of non-compliance, expertise gaps, and inefficient credentialing workflows. These issues not only threaten compliance but can also delay critical patient services. Enter andros Compliance Services!

andros is excited to launch our dedicated compliance service for providers, specifically designed to streamline your workflows and reduce compliance risk. Our tailor-made services cut through the complexity, ensuring you operate more efficiently.

## **Provider Organizations:**

### **Delegated Entity Support**

Preparing provider organizations to become delegated with health plans and other payers. Provide support in the completion of audit tools including review of policies and procedures, assisting with responses to credentialing questions from payers, and providing industry experience and insight during the delegation contracting process.

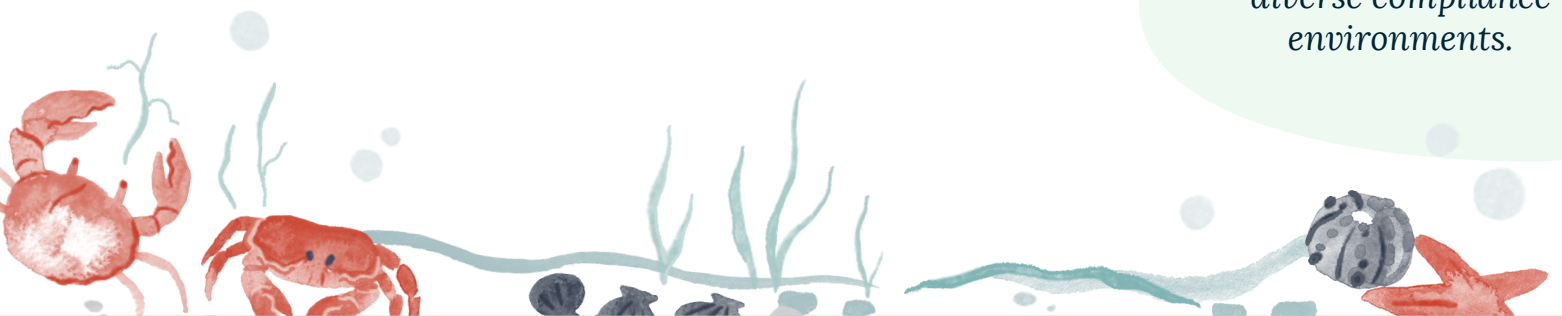

### **Compliance Foundations**

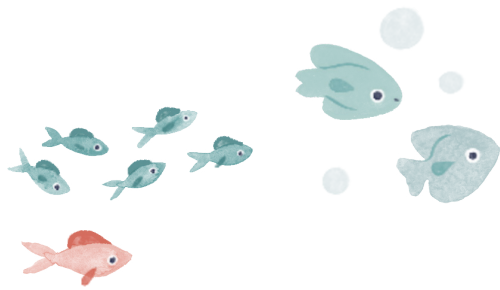

Assistance with creation or review of policies and procedures to ensure compliance with industry standards. Support with establishing NPDB access, including creation and review of peer review policy. Additional customized solutions to including, but not limited to, staff education and training.

*Customized solutions for provider organizations.*

*Flexible support structure to meet evolving compliance demands.*

*Expertise in diverse compliance environments.*

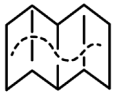

## Your Path to Compliance Excellence

### Step 1: Initial Consultation

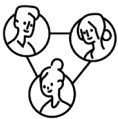

Discuss the current compliance status, identify specific needs, and review existing policies and procedures.

### Step 2: Customized Plan Development

Develop a customized compliance plan, including the creation or revision of policies and procedures, and design tailored educational solutions for staff regarding compliance and regulatory standards.

### Step 3: Implementation & Training

Implement the compliance plan, including conducting staff education and training sessions, and initiating the process for NPDB access and peer review policy establishment.

### Step 4: Delegated Entity Support

Provide comprehensive support for becoming a delegated entity with health plans and payers, including assistance with completing audit tools, responding to credentialing questions, and offering industry experience and insight during the contracting process.
