

Primary source data elements collected by andros

andros validates and collects all the primary source verifications (PSVs) required for NCQA-compliant provider credentialing.

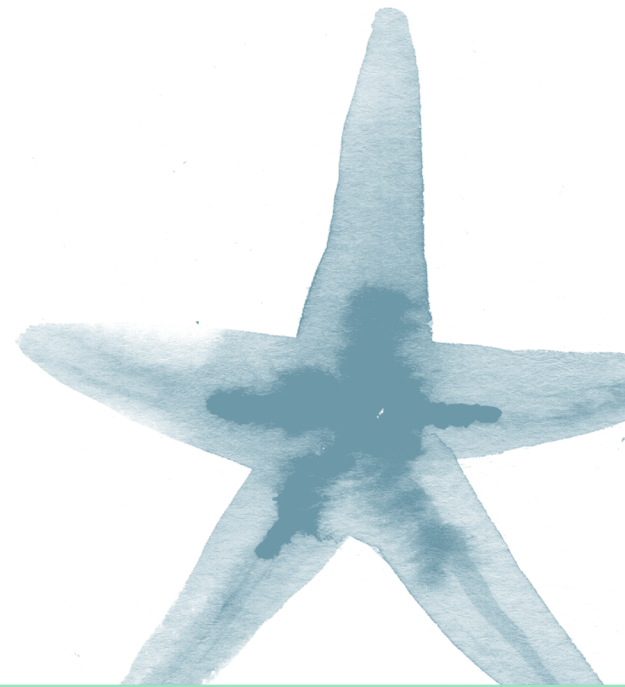

Review the table below to see which PSVs andros performs for initial credentialing, recredentialing, and ongoing monitoring.

PSV and data source	Event timing		
	Initial	Recredential	Monitoring
National Practitioner Number: <i>NPPES</i>	✓	✓	N/A
State Medical License: <i>State Licensing Board</i>	✓	✓	N/A
DEA License: <i>United States Drug Enforcement Administration (DEA) website</i>	✓	✓	N/A
Board Certification: <i>ABMS, AOA, other specialty boards as required</i>	✓	✓	N/A
Sanctions and Exclusions: <i>SAM/LEIE (OIG)</i>	✓	✓	✓
Malpractice: <i>National Practitioner Data Bank (NPDB)</i>	✓	✓	✓
Disciplinary information: <i>NPDB</i>	✓	✓	✓
Education Verification: <i>Board Certification or Letter from License Board or AMA, AOA, NSC or Medical School in the event not available through the licensing board or certifying board</i>	✓	N/A	N/A
Medicare Opt Out <i>CMS</i>	✓	✓	✓

Supplemental primary source verifications

andros has the capabilities to verify additional PSVs on behalf of our clients. Let's discuss your needs during the requirements discovery process.

Additional optional PSVs and data sources	Event timing		
	Initial	Recredential	Monitoring
